

## Optimised and efficient workflow for the hearing care professional

The Natus portfolio of hearing assessment and fitting solutions helps you streamline the entire patient journey by providing:

- Distanced otoscopy and image capture with the **Aurical® Otocam 300**
- 3D digital ear scanning with **Otoscan®** for counselling and custom products
- Hearing testing with **Aurical®** and remote programming with **Aurical® HIT** and RECD, e.g optimize patient touch points
