Online learning with Cochlear™ Academy

We have some fantastic resources for you, your colleagues and patients to help educate, inform and equip them about hearing implants. Be sure to check out Cochlear Academy, your platform for e-learning and resources. All the content is aimed at clinicians like you who are interested in hearing implants, but who do not work in a hearing implant centre. New content is added regularly. Use it for your CPD, and share it with your team!

Content includes:

- interactive learning modules about cochlear implants and acoustic implants (covering referral, candidacy, clinical effectiveness)
- downloadable brochures for your patients
- helpful reference material for clinicians
- testimonials
- waiting room poster

Essential conversations for cochlear implant referrals.

Conversation starters

Here are some pointers to help your conversations with patients about CI referrals. [Click here](#) to view Vicky's recent article in BSA's Audacity magazine.

(Volunteer Programme Manager at Cochlear)

See you soon!

Lots of you have met us before from our many refresher sessions around the country! As a reminder, we are here to support you- whether that's with questions about implants, resources for professionals or patients, lunch-time training/update sessions for your department, or volunteer connections for your patients - we are happy to help. Contact us at:

UKLearnnow@cochlear.com

Your patients can access helpful information here:

hearmore.cochlear.com

From L to R: Rashmi, Jayne, Vicky, Krista, Sahresh, Lisa, Michelle, Rebecca.

Classic Reads

Here are 3 classic must-reads that are super relevant to all CI Champions (you can find these all on Cochlear Academy- see links above):

- **Barriers and Facilitators to cochlear implant uptake in Australia and the United Kingdom, Bierbaum et al, 2019**
- **It's time to talk about cochlear implants, Ann-Marie Dickinson et al, 2019**
- **Guidelines for best practice in the audiological management of adults with severe and profound hearing loss, Turton et al, 2020.**
