

Leeds Teaching Hospitals

Strategy Hearing aids

- Sustainable future
- Wrote SBAR
- Network and presented diagnostic board
- Talked commissioners and managers
- Submitted October

- Didn't hear anything then 2 weeks before the end March
Procurement bought 7000 aids which paid for in year
- NHS value added spread sheet – worked up NHS supply chain

Model Leeds adults

- Working with ICB on governance
- Flexing capacity
- Principles hearing aids- rechargeable, city wide repairs, shared IT, procuring hearing aids as system
- Hospital triage through ENT
- Testing learning disability adults in their local community

- Funding look at New pathway proof concept– referral come in
- Exclusion direct ENT
- Otherwise they will be seen in community for video otoscopy, wax removal, semiautomated hearing test and fitting
- Working with HIN network and ICB
